DECREE UNDER DESTITUTION AND EXPANSION- Geeta Kumari¹ & Shreyash Gupta²**ABSTRACT**

New conceptualisations of poverty emerging in the social sciences challenge dominant neoliberal, income-based approaches to poverty and examine poverty and social disadvantage from multiple perspectives, considering the lack of resources in areas such as housing markets, employment and family relationships and physical and mental health. Although poverty can also be described as a lack of an individual's biological and psychological resources, our article mainly examines the sociopolitical and structural reasons behind it. Whether a person is poor is a question of fact. The term "poor person" is not defined in the 1956 Act, the Criminal Procedure Code of 1973 or the Civil Procedure Code of 1908. The dictionary meaning is "without means, lacking the necessities of life." A person can be considered destitute if he has no fixed residence, apparent means of survival, and no one to keep him company.

KEYWORDS

Destitution, Industrial Lapse, Civil Procedure Code, Communal, Subsistence

INTRODUCTION

Destitution is one of the most ambitious and significant protests regarding the pace of advancement for our civilisation. Every sum and checklist of the person from a low-income family struggling to survive, society makes it considerable communal cost-effective complication face. Poverty results in environmental, social, and industrial lapse, at variance with

every infliction of destitution, which is to be inebriated beyond acceptance of applicable means, with the four corners of code on contrary fronts³.

MEANING / CONCEPTION

It is to import a well-known species of primary substance of progress to address along with discard destitution. This has to do with the expulsion of poverty; the indicated only can help and open up improvement. Accordingly, an obligation originates to identify those who are needy and wish to be advised. Sec 2 (c) of the Poverty Alleviation Fund Act 2063(2006) means an alternative interpretation of living in poor need of every feed of activity as long as a state was also incomplete in supply /insufficiency or absence. Case of the state of living needy and needing capital poverty is every scarcity of essential individual requirements, like in the act of clean and fresh water, subsistence, medical and preventive or healthcare and health maintenance treatment, education or learning facility, clothing, and also shelter home because of individual inability to allow them. This is also more communicated as absolute complete poverty or destitution.⁴

TERMS RELATED TO POVERTY

Absolute Poverty VS Relative Poverty Absolute Poverty

It is also known as subsistence poverty and extreme poverty and is based on minimum physical needs such as basic good food, clean water, shelter, clothing, education, health or medical care, etc.. these are usually poverty-developed communities, and societies are quite different.⁵

Relative Poverty

It is the inability to attain a given contemporary standard of living from the social perspective of the standard of living thing measured by income standards and inequality of absolute
